

adastra DESK PAGING MICROPHONES

High quality, heavy duty paging microphones available with or without chiming function. Specially developed and designed for punishing industrial environments, these microphones are now some of the best selling and most desired in the European PA market. Strong, robust and stable base incorporates separate push switches for momentary and locked use on the (952.190) and on/off switches on the (952.193). The base is fitted with 4 soft rubber protection feet. The microphone can be used free standing or wall mounted. A strong flexible gooseneck of total length 33cm securely fixes the insert to the base.
