

**DM-3set**

This set of 3 dynamic microphones is ideally suited for vocal applications at recordings and live performances. The frequency response has been especially optimised for vocals, which makes the DM-3SET a reliable tool for all live performances.

Wide frequency range with very low acoustic feedback

Integrated windshield/pop noise mic head

Suitable for on the road applications due to diecast housing and steel basket

Supplied accessories: robust hard-sided case, 3 x stand clamps 16mm (5/8 ") - cables NOT supplied

Frequency response 50-15,000Hz

Impedance 500Ω

Sensitivity 2mV/Pa/1kHz

Max. SPL 120dB

Mic Dimensions Ø 53mm x 180mm

Mic Weight 285g

Connection XLR, balanced - cables NOT supplied

**DM-2500**

Wide frequency response dynamic microphone for stage, speech, vocals and DJ applications with Integrated windshield/pop noise mic head. Microphone holder, cable and case included,

Frequency response 30-18,000Hz

Impedance 250Ω

Sensitivity 1.5mV/Pa/1kHz

Max. SPL 120dB

Mic Dimensions Ø 54mm x 165mm

Mic Weight 662g

Connection XLR, balanced - cable supplied

Cable 6m low noise XLR to 6.3mm jack

## wicked magazine

"... it has got what it takes to become a good 'seller'. You really must test it!" This mic is as good as the industry standard!
